1) Meta Scifor Website

Develop a comprehensive website that effectively showcases the firm's services, expertise, and commitment to innovation. The website will serve as a platform for community engagement and talent recruitment, catering primarily to businesses seeking IT solutions, job seekers, interns, and the tech entrepreneur community in India.

Features:

1. **AI ChatBot Integration:** **SESNA & JERINA - UPDATED IN DRIVE**
   - Implement a lead generating chatbot similar to the one found at collect.chat. This chatbot will engage visitors, capture leads, and provide initial assistance.

2. **Homepage: -** **SESNA, RESHMA & JERINA - UPDATED IN DRIVE**
   - Engaging landing page with compelling visuals and concise content highlighting the firm's key services, expertise, and innovative solutions.
   - Call-to-action (CTA) buttons directing visitors to explore services, view case studies, or contact the firm.
   - Testimonials or client showcases to establish credibility.
   - Integration of the AI ChatBot for lead generation and assistance.

3. **Dynamic Service Pages:** **IT'S FUNCTIONALITIES IS IN 2ND AS WELL AS IN 8TH MODULE TOO SO DROPPED**)
   - Utilize Django's template inheritance to create a base template for service pages, ensuring consistency and ease of updates.
   - Each service will have its dedicated page dynamically generated from the admin interface.
   - Detailed descriptions of services, accompanied by relevant visuals or infographics.
   - Integration with the admin interface to allow non-technical staff to update service details easily.

4. **Entrepreneurship Initiative Platform:** SESNA, JERINA : UPDATED IN DRIVE

    - Submission form allowing anyone to submit their business idea by filling out a form and uploading a PDF or PPT document.
    - Review process to evaluate submitted ideas. If an idea is deemed interesting, offer free tech support to the submitter.
    - Dedicated section showcasing successful projects or startups that originated from this initiative.

5. **Online Tests**: SESNA, JERINA,SHIVAM,GEETU, MOHIT - ONGOING
    - When there are any job openings, provide a link for the first round, which is an MCQ round.
    - Candidates can attend the quiz, which features secure, timed quizzes.
    - Results and personal details should automatically fetch into an Excel sheet.
    - Quiz management using Django to handle sessions, questions, and answers.
    - Integration with AI for adaptive difficulty levels to enhance the testing experience.

6. **Certificate Verification:** MOHIT, GEETU, SHIVAM - UPDATED IN DRIVE
    - Implement a verification system for authenticity checks of issued certificates and IDs.
    - Utilize Python libraries
    - Ensure a secure and tamper-proof verification process to maintain trust and credibility.

7. **Services Page:** (IT'S FUNCTIONALITIES IS IN 8TH AS WELL AS IN 2ND MODULE TOO SO DROPPED)
    - Overview of all services offered by the firm, categorized for easy navigation.

- Case studies or success stories linked to respective services.
- Clear CTAs to encourage visitors to inquire or request more information.

8. **About Us Page:** AYUSH - UPDATED IN DRIVE
    - Company overview, mission, vision, and core values.
    - Profiles of key team members or leadership.
    - Insights into the firm's culture, achievements, and milestones.

9. **Community Engagement Section:** SHIVANI - UPDATED IN DRIVE
    - Blog or news section featuring articles, insights, and industry updates.
    - Integration with social media platforms for sharing and engagement.
    - Events calendar for upcoming webinars, workshops, or networking events.

10. **Careers Page:** RESHMA AND AJAY - ONGOING
    - Job listings for various positions within the firm.
    - Information on internship opportunities.
    - Testimonials from current employees or interns.

11. **Contact Page: AYAN -** UPDATED IN DRIVE
- Contact form requesting:
    Full Name
    Phone Number
    Email
    Company Name
    Planned Spend for Project (Dropdown options: Less than 50k, 50k - 100k, 100k - 300k, 300k - 500k, Above 500k)
    Project Requirements (Text field)

Target Audience:
- Businesses Seeking IT Solutions: Companies looking for innovative IT solutions to enhance their operations or digital presence.
- Job Seekers & Interns: Individuals interested in career opportunities or internship programs within the tech industry.
- Tech Entrepreneur Community in India: Startups or entrepreneurs seeking partnerships, mentorship, or support for their ventures.
